

Iran and Russia: Towards Sustainable Development of The World Energy

By: S.Vatankhah Moghaddam
November 2016

World Energy: Now and Future

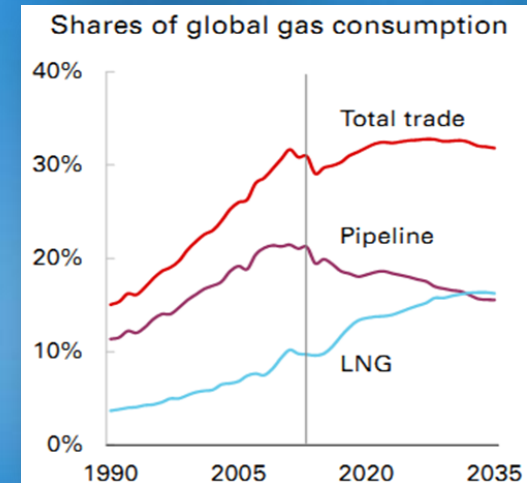

➤ Shale oil & Gas
production increment;

➤ World LNG Trade Trend;

➤ World Oil Price Fluctuation;

➤ Environmental & Climate Change Commitments;

The Necessity of World Energy Players
Collaboration

Iran and Russia Cooperation in Energy Sphere

1. Technology, as the main context for future cooperation:

Foundation of High Commission for Scientific and Technological Cooperation Between Iran and Russia;

- Iran High Excellency Vice President for Science and Technology and Russian Federation High Excellency Deputy of Prime Minister;
- First Mutual meetings in 2015:
August (Moscow) and November (Tehran);
- Energy as a priority for the Commission;

Iran and Russia Cooperation in Energy Sphere

- Re-negotiation on West Oil Fields;
- Russia interest on West Karun Oil Filed Development;
- Russia cooperation on deep water exploration in Caspian Sea;

Iran and Russia Cooperation in Energy Sphere

3. Power Industry: Development of Iran – Azerbaijan – Russia

Cooperation and boosting stability in the Caucasus;

- Russia as a partner for Iran on power grid optimization project;
- Enhancement of Iran - Russia power exchange through Azerbaijan;
- Russian partnership in Iran on power plant capacity extension can lead to enhancement of power exchange;

Iran and Russia Cooperation in Energy Sphere

4. Gas Industry: Partnership for shaping a new market approach ;

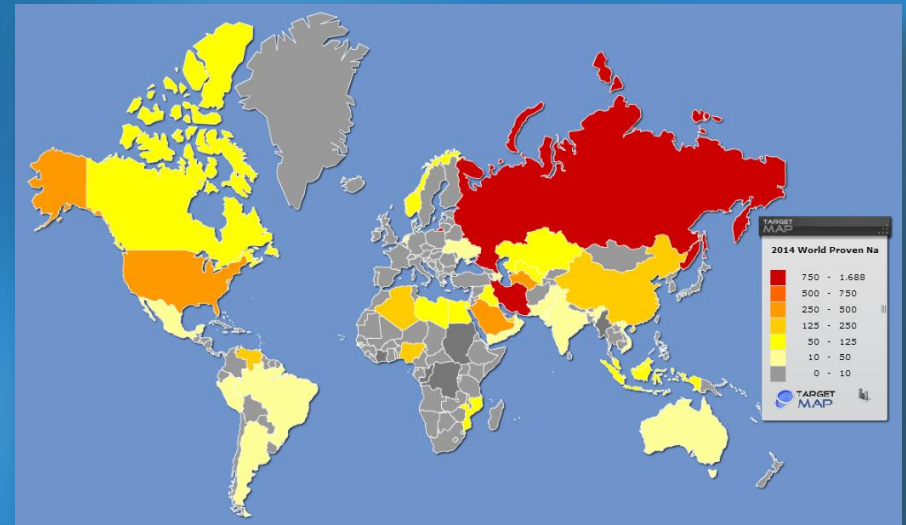

- Extension of cooperation for increasing both side share in world

LNG market: Iran LNG projects;

- Increasing integration at GECF;

- Russia as a partner for Iran on

UGS projects;

Conclusion

- World energy changes, fluctuations and competitors;
- Necessity of expansion of cooperation between Iran and Russia on:
 - Technology, as the main context for future cooperation;
 - Caspian Sea: Axis for Regional Integrity;
 - Power Industry: Development of Iran – Azerbaijan – Russia
Cooperation and boosting stability in the Caucasus;
 - Gas Industry: Partnership for shaping a new market approach;
 - Oil industry: Renewing ties;
